

SUMMARY

Frontend developer looking for the opportunity to apply my skills, share experience and benefit the company

SKILLS

- **Libraries:** ReactJS, Redux, jQuery, Bootstrap
- **Languages:** JavaScript, Typescript
- **Developer Tools:** Visual Code, Version Control (Git), Webpack, Github
- **Technologies:** HTML/CSS, SASS

PROJECTS

Music App | *ReactJS, Redux, Hooks, HTML/CSS, SPA* | [GitHub](#) [Demo](#)

- Developed music app with login/signup functionality, song filtration, playlist suggestions and opportunity to build users playlist

Memory game | *JavaScript, HTML/CSS, Webpack* | [GitHub](#) [Demo](#)

- A classical memory card game with 3 levels, where a user can choose a difficulty level and try his/her skills in memorizing multiple cards in 5 seconds. By the end of the round user can check how much time it took to win or lose

Multiplayer rock-scissors-paper game | *JavaScript, HTML/CSS, SPA, AJAX* | [GitHub](#) [Demo](#)

- Built an online rock-scissors-paper game.
- User can login, see players that are online, start a new game with a random player

Furniture store landing page | *HTML/CSS, SASS, Responsive design* | [GitHub](#) [Demo](#)

- Landing page, that is compatible with tablet and mobile browser versions, contains main, catalog and cart pages
